SUBJECT: Genetically Engineered Foods

[Message]

President Clinton, I insist that you require the FDA to at least require mandatory labelling of Genetically Engineered Foods. I am angry to discover that many of the foods I feed my family for our health contain GE ingredients. We can not be assured of the safety of these "products" to our bodies or our environments and at the very least WE HAVE A RIGHT TO KNOW WHAT WE ARE EATING. It's obvious that the companys who make this stuff know most of us won't eat it if we know. It sickens me that profit is so blatently put before the health of our families and our world. DEMAND LABELLING NOW. BAN GE PRODUCTS. Denise
